Operations Manager
Bechtel National, Inc.
Bechtel Nuclear, Security & Environmental, Inc.

BIOGRAPHY

Michael Graham is a Bechtel principal vice president and operations manager of Bechtel National, Inc., the company's U.S. government services arm. He provides corporate leadership for the company's broad scope of projects for the Department of Energy and Department of Defense.

His more than 35-year career includes extensive experience in nuclear and high-hazard operations, hazardous waste management and minimization, environmental R&D, groundwater remediation, and decontamination, decommissioning, and demolition activities in demanding regulatory environments in the U.S. and overseas.

Graham has served as general manager of Bechtel's Environmental business line; associate director for the legacy environmental cleanup program at Los Alamos National Laboratory; president of Bechtel Savannah River Inc.; and led cleanup programs at DOE's Hanford and Idaho sites.

Prior to joining Bechtel, Graham held senior research and management positions at the Pacific Northwest National Laboratory. He holds master's and PhD degrees from Indiana University and a BS from the University of Notre Dame.
