

Karen Wiemelt

SENIOR VICE PRESIDENT AND GENERAL MANAGER

NORTH AMERICAN NUCLEAR

With more than 30 years of experience in the nuclear industry, Karen Wiemelt is a recognized leader with expertise in the areas of program management, environmental remediation, nuclear operations, project controls, and strategic planning. Her expertise in program management and project controls has identified potential savings in excess of \$100 million and led to consistent delivery of complex programs ahead of schedule. She has been appointed the Senior Vice President and General Manager of the Jacobs Engineering North American Nuclear Business Unit. Additionally, she currently serves as the Board Chair for both CH2M HILL Plateau Remediation Company at the Hanford Site and Four Rivers Nuclear Partnership, LLC. at the Paducah Gaseous Diffusion Plant.

Ms. Wiemelt offers more than 30 years of experience in nuclear operations, project controls, planning and environmental remediation across the US Department of Energy Complex

Previous Experience

Most recently, Karen served as Operations Director of Global Major Accounts and Project Services for CH2M's Private Client Sector, responsible for P&L of Major Accounts and providing the standards, processes and tools to improve project delivery from planning and estimating through execution.

Karen has held several senior management positions in the nuclear industry including Vice President of the Soil and Groundwater Remediation Project for CH2M HILL Plateau Remediation Company at the Hanford Site and Senior Vice President of Global Business Development for CH2M's Nuclear Business Group. As Vice President of the Soil and Groundwater Remediation Project, she was responsible for managing a \$300 million annual budget to remediate of approximately 80 square miles of groundwater contamination across the Hanford site.

Karen has held key roles on other major programs, including:

- Decontamination and Decommissioning (D&D) Project Controls Director for CH2M HILL Plateau Remediation Company
- Project Manager on the DNFSB 94-1 Plutonium Solution Stabilization Program and D&D projects
- All environmental remediation projects at the Rocky Flats Environmental Technology Site in the final two years of site closure
- Environmental remediation and project management for the U.S. EPA and other environmental industries

Education and Professional Affiliations

- B.S., Chemical Engineering and Petroleum Refining, Colorado School of Mines
- Certified Project Management Professional, Project Management Institute
- Professional Engineer, Colorado
