

Peter Wolfe is a Vice President and Federal Client Service Director with ARCADIS, an international company providing consultancy, design, engineering and management services in the fields of infrastructure, water, environment and buildings. Headquartered in Amsterdam, the Netherlands with over 300 operating offices and 27,000 professional staff worldwide, ARCADIS is a \$4 Billion company ranking in the top environmental consultancies worldwide. Mr. Wolfe has served in both operational and management positions for over 30 years serving public, private and non-profit/academic enterprises. Much of his work is in support of US Federal Agencies such as the US Department of Energy, US Department of Defense, and US Environmental Protection Agency among others. He serves as part of Arcadis' Federal Program Leadership team with program delivery and business development responsibilities for multi-million-dollar engagements company-wide. He has completed several high-profile projects to include his work for the DOD's Deputy Assistant Secretary, Office of the Chief Scientist, and the Chairman, Joint Chiefs of Staff. In a recent assignment, he supported the US Army in a joint effort with NATO to evaluate demilitarization technologies to reduce the stockpile of munitions worldwide.

Mr. Wolfe has held several key roles in support of our Department of Energy program to include:

**DOE Environmental Management:** Client Service Director for multiple environmental clean up projects including work at the Portsmouth Gaseous Diffusion Plant, OH, Los Alamos National Laboratory, NM, and Fernald, OH Legacy Management Site

**CNS, Pantex Facility, TX:** Client Service Director for groundwater optimization project.

**DOE Stanford Linear Accelerator Center (SLAC) National Accelerator Laboratory, CA:** Principal-In-Charge for multi-year, EH&S and Engineering Services IDIQ contract.

**DOE Brookhaven National Laboratory, NY** – Principal-in-Charge for Brookhaven national laboratories groundwater programs.

**DOE Jefferson National Laboratory, VA** – Client Service Director for environmental compliance and groundwater clean up projects.

**DOE Fermilab – Fermi National Accelerator, IL** - Principal-in-Charge for an environmental assessments (EA) for the LBNE and PIP II projects.

**DOE Office of Energy Efficiency & Renewable Energy, Department of Energy, National Renewable Energy Laboratory, CO.** – Member of project delivery/data analysis team for evaluating renewable energy technology demonstration projects under a nationwide three-year R&D contract.

Mr. Wolfe has served on several local and national boards to include the Society of American Military Engineers, the International Association of Business Communicators and Big Brothers Big Sisters. He is the Arcadis Executive Council Representative to the Energy Facilities Contractor Group (EFCOG) and executive sponsor of Arcadis' engagements with the Energy Technology and Environmental Business Association (ETEBA), East Tennessee Economic Council (ETEC) and the Energy Communities Alliance (ECA).

Mr. Wolfe has served as a Tier IV facilitator, published several articles, and participated in several industry-sponsored forums. Mr. Wolfe holds BA and MA degrees from Providence College and Fairfield University respectively. He recently retired from a state emergency services and homeland security office where he served as a volunteer Command and General Staff Officer. He resides in the metropolitan New York City area with his wife, Janine and their two daughters.
