

Working Group Chairs Meeting on COVID-19 Lessons Learned

H. Ray Hubbs, CCITP-F
Safeguards & Security Working Group

August 20, 2020

COVID-19 Lessons Learned

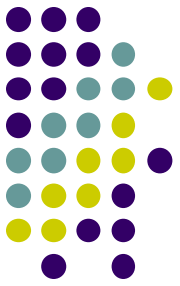

-Lessons Learned Description: Lessons Learned In Safeguards & Security

-Why it was used: As the COVID-19 pandemic spread across the United States, sites quickly realized the need to modify work practices to ensure the health and safety of workers and their families in the face of this new threat. Sites still needed to meet national security commitments to the federal government and the military, and would need the creative talents of the entire workforce to determine innovative solutions that would protect personnel and facilitate mission accomplishment.

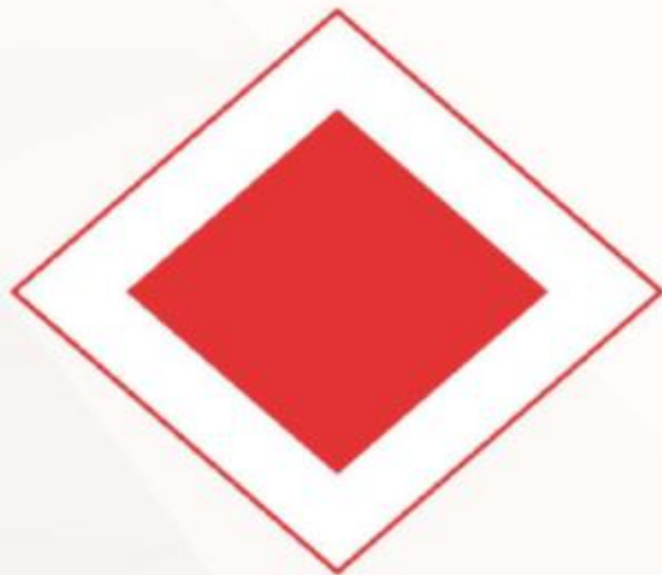

COVID-19 Lessons Learned

-Benefits of LL: To provide information that can increase effectiveness and efficiency and to build on the experience that has been earned by each respective site.

-Challenges:

1. Rapidly implement telework capability for employees able to perform their work remotely.
2. Reduce potential that an infected essential employee could expose an entire group or shift of essential personnel while on site.
3. Reduce potential for exposure of essential personnel to COVID-19 while on site.
4. Prompt all personnel to check their health status before arriving at the sites each shift.

If you answer **NO** to all questions, place the card this **(green)** side up on the dashboard of your vehicle.

If you answer **YES** to any question, **please call Occupational Health Services** [redacted] for further guidance, or the **Operations Center** [redacted] after hours.

COVID-19 SCREENING QUESTIONNAIRE

TRAVEL HISTORY

In the past 14 days, have you traveled inside the United States to areas with active community spread of COVID-19**?

NO

YES

CONTACT HISTORY

Have you or anyone you have been in contact with had a confirmed diagnosis of COVID-19?

SYMPTOMS

Do you have fever, cough, shortness of breath, or other symptoms of respiratory illness (for example, loss of smell/taste)?

Have you had a fever, cough, shortness of breath, or other symptoms of respiratory illness in the past 14 days?

** Subject to change: Current level 3 travel countries and the following areas: New York, New Jersey, Connecticut, Nashville, Memphis, and Atlanta

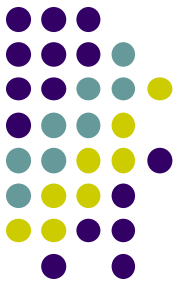

COVID-19 Lessons Learned

-Challenges (continued):

5. Reduce potential for exposure by decreasing the number of personnel touching security badges.
6. Discourage personnel from gathering at break rooms.
7. Incorporate facemasks into the normal work routine.
8. Enhance ability to maintain a sufficient supply of disinfectant to meet operational needs.
9. Share data with personnel both on and off site for situational awareness and action.
10. Conduct training academy for new security police officers, while meeting the new protective measure requirements put in place for the pandemic.

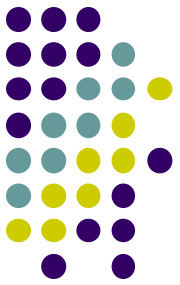

COVID-19 Lessons Learned

-Issues:

1. Mandatory facemask requirements at work are not followed consistently.
2. The formal document change process does not facilitate timely revision.
3. The process for distributing and processing Human Reliability Program (HRP) paperwork does not function efficiently for teleworking staff.
4. Social distancing and barrier protective measures for security personnel do not thoroughly shield them at their duty stations.

COVID-19 Lessons Learned

-Issues:

5. The location of badge enrollment and access control stations does not promote social distancing or allow redundancy if the facility where the stations are located is compromised.
6. Drug and Alcohol Testing – Still in Effect
7. Insufficient supply of GFE to support telework needs.
