

JACK R. CRAIG, JR.

Chief Operating Officer AtkinsRèalis US Nuclear

Jack R. Craig, Jr. currently serves as the Chief Operating Officer for AtkinsRèalis US Nuclear. In this role he supports the growth and execution of AtkinsRèalis US Nuclear and AtkinsRèalis global nuclear business. He leads all Operations of the business, the development and implementation of growth strategies, leads performance evaluations of operations, and participates on Joint Venture Governance Boards in the US and Canada to ensure the safe and efficient delivery of contractual commitments.

Prior to his current position with Atkins, Mr. Craig served over 30 years in high-level technical, management and executive leadership positions both at the U.S. Department of Energy (DOE) Headquarters and DOE field offices. Many of these positions have been associated with environmental cleanup activities at former nuclear weapons production facilities throughout the DOE Complex.

Mr. Craig served as the Manager of the DOE Savannah River Operations Office (SR) at the Savannah River Site (SRS) in Aiken, South Carolina, from May 2015 through February 2018. As DOE-SR Manager, Mr. Craig was responsible for one of the Department's most diverse and complex missions, overseeing management and operations of the vast Savannah River Site covering 310 square miles, a workforce of over 11,000 federal and contractor staff and an annual budget of over \$2 billion. He led the Site's Environmental Management (EM) program which includes: treatment and disposition of High Level Radioactive (HLW) liquid waste, the closure of underground HLW tanks, the disposition of legacy plutonium and uranium materials, consolidation and safe interim storage of excess plutonium and spent nuclear fuel in support of national defense and nuclear nonproliferation priorities, and facility decontamination and decommissioning efforts across the Site. Additionally, Mr. Craig had overall leadership of the Savannah River National Laboratory, EM's national laboratory and the Site's multi-program applied research and development laboratory, focused in the areas of nuclear and homeland security, clean energy, and environmental stewardship.

Previously, Mr. Craig served as the Director of DOE's Environmental Management Consolidated Business Center (EMCBC) in Cincinnati, Ohio, from 2004-2015, leading an organization that provides business and technical support to the entire DOE-EM complex in the areas of project management, financial services, cost estimating, intergovernmental communications, legal services, property and records management and technical services. In this position he was also responsible for executing all new acquisitions and contracting for DOE's EM program. During this time the EMCBC served as the Acquisition Center for the \$6 billion/annual DOE-EM Program.

From January 2014 through December 2014, Mr. Craig took on the added executive leadership roles of Acting Associate Principal Deputy Assistant Secretary for DOE-EM and Senior Advisor for the Assistant Secretary for Environmental Management at DOE-Headquarters in Washington, D.C.

Earlier in his career, from 2000-2004, Mr. Craig served as the Deputy Manager of the DOE Ohio Field Office where he was responsible for the management, cleanup and restoration of five separate DOE facilities (Fernald, Mound, Battelle-Columbus and Ashtabula) and the West Valley Demonstration Project in New York. From 1995- 2000, he was the Site Manager of the Fernald Environmental Management Project, EM's first major closure project, and responsible for the management of all facilities decommissioning, radioactive materials management, environmental restoration, and public involvement.

Before joining DOE, he managed environmental projects at Department of Defense facilities for General Dynamics Corporation and he also held various positions with the Naval Sea Systems Command.

Mr. Craig entered the Federal Senior Executive Service in September 1999. In 2009, Mr. Craig received the Senior Executive Service Presidential Rank Award of Meritorious Executive and in 2015 received the Presidential Rank Award of Distinguish Executive. He also served as Acting Chair and Vice Chair of the DOE Environmental Management Advisory Board from 2019 – 2023.

Mr. Craig holds a Bachelor of Science in Civil Engineering from Ohio State University and an Executive Certificate in Management and Leadership from MIT Sloan School of Management. He and his wife, Marybeth, reside in Ohio.
