

David Blevins

Vice President and General Manager North American Nuclear

David Blevins is Vice President and General Manager of the Jacobs North American Nuclear (NAN) portfolio of work for the U.S. Department of Energy (DOE) and the Atomic Energy of Canada Limited (AECL). David is responsible for the operational performance, business growth, talent development and financial management of the NAN operating unit.

David has more than 30 years of experience leading business units, managing projects and programs, and delivering technical solutions. Prior to his current position, David served as the General Manager and Operations Director for Jacobs Global Environmental Solutions business, growing and delivering environmental work across the Federal, commercial, and public sector client bases.

His previous positions include roles leading Operations, Risk, and Project Delivery/Assurance functions. His project experience centered around NEPA, hazardous waste management, risk management, construction, and environmental compliance.

David has strong business acumen and passion for people development. He earned bachelor's and master's degrees from Morehead State University in Kentucky.
