

Mr. Robert “Bob” Miklos serves as Executive Vice President of Program Assurance at Veolia Nuclear Solutions - Federal Services (VNSFS) in the U.S.

He retired from the U.S. Department of Energy work at the Idaho National Laboratory after 23 years of service. He most recently held the position of Director of Production Facilities and Treatment Storage and Disposal Facilities at INL’s Materials and Fuels Complex, where his responsibilities included spent fuel recycling, nuclear fuels management, waste management and legacy environmental waste disposition. He also oversaw nuclear and radiological facility operations at INL’s Fuel Conditioning Facility, Remote Handled Low Level Waste Disposal Facility, Radioactive Scrap and Waste Facility and the BEA Idaho Nuclear Technology and Engineering Center facilities.

He has more than 30 years of experience in disciplined operations of nuclear and non-nuclear facilities, spent fuel and waste management, start-up and testing, integrated safety management and project management of large-scale and complex projects. Prior to joining INL, Miklos spent 18 years in large-scale commercial construction, capital asset projects and U.S. Department of Defense construction, submarine overall and aircraft carrier prototype overhaul, defueling and refueling, and decommissioning experience. Miklos is actively engaged in the Energy Facilities Contractors Group (EFCOG), previously serving on its Board of Directors and as chair of its Project Delivery Working Group. He holds undergraduate degrees in engineering from Pennsylvania State University and Old Dominion University. He is a PMI-certified Project Management Professional and a Stanford University Certified Project Manager
