

Sharon Marra

*Deputy Laboratory Director, Operations
Savannah River National Laboratory*

As the Deputy Laboratory Director, Operations Sharon Marra is responsible for executive leadership and daily management of the 1400 employee, \$400M multi-program National Laboratory. She leads SRNL in driving down safety and operational events and assuring cost effectiveness while conducting the laboratory's critical missions in support of its customers and the nation.

Sharon has over 35 years of experience in engineering and research at the Savannah River Site (SRS) and the materials manufacturing industry, including over 25 years in management and technical leadership. Prior to her role as Deputy Director, she held various Director and Management-level roles in technical leadership in chemical and environmental processing and compliance. In these roles she oversaw the development and deployment of critical technologies to advance the Environmental Management and other DOE missions.

She serves on the Ames National Laboratory Operations Review Committee, advising on operational performance plans and recommending past practices. She also serves on the Aiken County Commission for Higher Education and is a member of the Aiken Chamber of Commerce Board of Directors.
