

# Jeff Stevens

*Executive Officer (Acting)*

Jeff Stevens joined Newport News Nuclear BWXT Los Alamos (N3B) as acting executive officer in July 2023. His responsibilities include ensuring safety, security, quality and compliance are an integral part of every task performed at N3B.

Before joining N3B, Jeff was with BWX Technologies (BWXT), most recently as vice president of operations. His career also includes service at EnergySolutions, Kaiser-Hill LLC and OHM Remediation Services Corp.

Jeff has more than 40 years of experience managing nuclear operations and cleanup projects for the U.S. Department of Defense, the U.S. Department of Energy and private companies. He's led more than 300 decommissioning, waste management and remediation projects at over 100 nuclear/radiological sites.

Jeff earned his Bachelor of Science in mining engineering from Colorado School of Mines in 1982 and he served as an officer in the U.S. Navy from 1983-1989.

*N3B is a limited liability company owned by HII Nuclear and BWX Technologies. N3B manages the Los Alamos Legacy Cleanup Contract for the U.S. Department of Energy's Environmental Management Los Alamos (EM-LA) Field Office.*
