

Candidate Statement – Karen Harris

This statement expresses my keen interest in joining the EFCOG Board of Directors. Finding that EFCOG's mission and goals align with my mission and goals, I am excited about the opportunity to join the EFCOG's Board.

EFCOG's mission is to promote excellence and innovation in DOE site operations and management. As a proven leader with over 25 years of expertise in strategic planning, business development, and performance management (20 years within the DOE/NNSA market), I am committed to advancing EFCOG's mission. Not only is my experience managing profit and loss, employee productivity, and strategic planning at BGS substantial, but I also bring an in-depth understanding of the government procurement process and hands-on experience leading large government proposal efforts. This background equips me with a unique perspective and practical insight into the challenges and opportunities facing EFCOG's members, including both the prime contractor community and the small business community.

I would be honored to serve on EFCOG's Board of Directors. I believe I will successfully work with other Board members to advance EFCOG's mission. My leadership experience and strategic vision demonstrate that I am particularly qualified for this role, and I am eager to collaborate with esteemed colleagues on the Board to deliver meaningful outcomes for EFCOG and its stakeholders.
