

Bobby D. Smith

EFCOG Board Candidate Statement

Bob Smith, Senior Vice President, leads Fluor's Nuclear & Environmental business in support of the U.S. Government. Since joining Fluor in 2016, Bob served as Site Manager at the Department of Energy's Paducah and Portsmouth sites before transitioning to a Chief Operating Officer role and then his current position. He's also worked at the Separations Project Research Unit, East Tennessee Technology Park, Hanford and the Savannah River Site. Bob is a veteran of the U.S. Navy where he was trained as a Naval Nuclear Officer.

As a member of the EFCOG Board, Bob is committed to safely ensuring DOE/NNSA mission success across the complex by working collaboratively with member companies and DOE/NNSA at both the headquarters and field levels. By prioritizing innovation and efficiency, Bob believes that the solutions to our industry's most pressing issues are within our reach.
