CANDIDATE STATEMENT – EFCOG BOARD

I'm honored to be considered for the opportunity to serve as a Board Member for EFCOG. In my current role as Chief Business Officer, I serve as the single point of accountability for the execution of business and administrative functions performed on the KCNSC Management and Operating contract. That experience, paired with my broader work in leading financial planning and analysis, resource and operational planning, strategic sourcing and Global Security, has equipped me with deep insights that can aid our members, DOE and NNSA in achieving management and operational excellence.

I firmly believe in the power of our EFCOG community. Since becoming a member, I have actively sought to advance our working groups and broader information exchange. That includes growing my own participation in the Supply Chain working group, connecting additional leaders into participant and leadership roles in the Waste Management, Operations, and Safeguards and Security working groups, and coordinating opportunities to share best practices and information from KCNSC's strategic endeavors (e.g., digital transformation) with the broader EFCOG membership via webinar sessions. If elected to a board position, I would serve as a champion for collaboration — seeking new opportunities to facilitate strategic connections and knowledge sharing.

I'm excited about the opportunity to support and continue learning from those around me.

Thank you for your consideration.

A handwritten signature in black ink that reads "Ryan".
