

Michael Lempke

Friends, it has been my pleasure to serve the EFCOG board for quite a while, during which I have also served as Chairman of the board, and I would like your support to continue to serve on the board.

I believe very strongly in the EFCOG mission and believe that together we can continue to support the critical national security missions of the Department of Energy. DOE's Industrial Partners are uniquely qualified to do this.

I would be honored to continue to serve on the EFCOG board to further support improving operations throughout the US DOE Complex, sites and laboratories.
