

MYRNA ESPINOSA REDFIELD

PROFESSIONAL SUMMARY

Ms. Redfield has over 34 years of experience in the leadership of complex projects as a program director and project manager, and regulatory affairs director in the nuclear industry. Since August 2019, Ms. Redfield has served as the President/CEO & Program Manager for Four Rivers Nuclear Partnership's ten year, \$1.9 billion Deactivation and Remediation Project at the Paducah Gaseous Diffusion Plant located in Kentucky. In this position, she is responsible for the performance and safety of ~750 personnel, including two supporting union organizations. Prior to FRNP, Ms. Redfield served in various technical and leadership roles on multi-million dollar U.S. Department of Energy's contracts. She has a demonstrated track record of leading people to solve complex problems associated with the Nation's nuclear cleanup missions. She is a recognized leader in establishing strong client relationships while implementing programs and strategies to address difficult technical challenges.

Myrna is a native of Puerto Rico. She is a graduate of the University of Puerto Rico with a bachelor degree in Industrial Engineering.
