

**Maximizing DOE mission success by
taking an outcome based approach to
operational excellence**

About Us

EFCOG is a volunteer organization of more than 140 contractors that support critical programs that comprise two-thirds of the Department of Energy's annual budget. EFCOG's overarching goal is to deliver DOE's critical missions in areas like national security, environmental cleanup and scientific research, faster and cheaper, while maintaining requisite levels of safety, security, and quality. To that end, EFCOG collaborates with DOE on ways to increase operational efficiency across-the-board.

EFCOG is committed to working with DOE/NNSA to:

- Develop and share solutions to problems among subject matter experts in the areas most critical to mission success
- Increase efficiency through streamlining initiatives
- Identify best ways to utilize industry standards to reduce costs and increase the supplier base
- Utilize digital tools/AI to detect and eliminate issues thus accelerating mission accomplishment
- Assure continuous improvement/resiliency in all program operations
- Develop the workforce of the future
- Share lessons learned among member companies on implementing actions to accelerate mission delivery

How EFCOG Benefits DOE

EFCOG initiatives have provided substantial benefits in aiding DOE and NNSA in conducting their missions safely and efficiently. These initiatives have included:

- Developing a risk-based approach to conducting work to detect and eliminate or resolve issues early
- Developing a performance assurance maturity model to self-assess effectiveness of risk management programs
- Recommending actions for accelerating infrastructure projects (use of commercial standards, accelerated decision making, simplified reporting and expanding supply chains)
- Developing approaches for accelerating introduction of digital tools/AI to improve mission delivery
- Analyzing long-term workforce needs and workforce development programs
- Establishing cyber security best practices and conducting cyber tabletop exercises

Engaging With EFCOG

The member companies of EFCOG and our federal customers welcome participation from new companies and individuals.

Join our team of more than 140 companies to receive member benefits:

- Membership in working groups for valuable exchanges of information in key areas affecting operations
- Participation in the Executive Council to engage in a range of critical policy issues
- Interactions with DOE by supporting key priorities
