# MSL – Master Supplier List Database

## History

Sun 3/22/20 the MASL was deactivated. Wed 3/25/20, the MSL launched replacing MASL.

## Step 1 - Required Credentials:

PIV or OneID (available for those sites that have adopted it)

\*NOTE: Local help desks can help with credential options, but they do not support MSL.

## Step 3 – MSL Self-Enrollment

(done while still in SKY Portal site)

- Click 'Begin Self Enrollment'
- Select MSL as the site you want access to.
- You will be prompted through next steps for contractor type, site and edit or view access.

Contact the MSL team at any time for assistance: [mslsupport@sandia.gov](mailto:mslsupport@sandia.gov)  
(user guide is available for step-by-step instructions)

## Step 2 – SKY Portal Registration

SKY Portal- <https://thesource.energy.gov>

- Click 'Sign In' (top right), then you will be prompted through next steps
- A circle at top right with your initials is confirmation that registration is complete.

\*NOTE: You cannot advance to step 3 until this is done

**Once access is confirmed use this direct link to access MSL:**  
<https://msl.kcnsc.doe.gov>

# MSL – Master Supplier List Database

Your MSL team is always working on improvements or projects but here are a few of our activities

## 2022 Changes/Updates

- Start Date added to assessment display line
- UEI and DUNS fields on supplier locations
- Various adjustments to improve user interface

## Current Projects

- Population of UEI and DUNS fields (prep for record consolidation project)
- Prototype for all site merged schedule

## Cost Avoidances

- The MSL cost avoidance feature helps us identify savings from sharing 3<sup>rd</sup> party audits.
- If you have saved \$ by performing a 3<sup>rd</sup> party review or only had to send 1 or 2 person(s) on an audit vs. a full team, a cost avoidance needs to be entered in MSL.

## **SME'S ON SUPPLIER AUDITS – Helps with Cost Avoidances & Good Business Practice**

DOT Packaging suppliers - If you are doing an audit of a DOT packaging supplier. You need to have a DOT SME along for the audit, or at least an a DOT checklist provided to a QA auditor who has been trained in DOT. It's a good idea to interview the SME to make sure of his qualifications.

Welding programs – If you are doing an audit of a supplier who is doing welding or providing welding materials you need to have a CWI or similar type welding SME.

There may be cases where you need to bring both a DOT and Welding SME. If no specialized welding is required you may not need a Welding SME.

## GIDEP S/CI Issues: between 26-DEC-2022 and 30-DEC-2022

Title: SUSPECT COUNTERFEIT, NETWORK CARD Abstract: Crystal Group received 72 Network cards labeled with the Intel label, but we found that they are not the Intel Network Card after talking with Intel. After further testing, Crystal Group has found that the network card does not have same Printed Circuit Board or Processor when compared to a known good. The heat sink had a few visual differences as well as mounting points. Processor used was also different. January 30, 2023

## GIDEP S/CI Issues: between 26-DEC-2022 and 30-DEC-2022

**Subject: GIDEP Suspect Counterfeit Doc's between 26-DEC-2022 and 30-DEC-2022 \* \* \* \* \***  
**DOC=B9B-A-23-01 CEDATE=27-DEC-2022 DD=AL Title: SUSPECT COUNTERFEIT, DDR SYNCHRONOUS DRAM, HY5DU573222F- 33**

Abstract: SMT Corp received electronic parts represented to be new and unused marked with the Hynix Semiconductor trademark, part number HY5DU573222F-33, lot code W6DG0685WQ1 and date code 0538. Materials were received from Prism Electronics under SMT Corp purchase order 32242.

No results were yielded after the date/lot code for this part number were checked against the GIDEP and ERAI databases. External Visual Inspection was performed at a magnification level of 60x on 100% of this lot. Evidence of damage, tampering, prior use, refurbishing, remarking or resurfacing was detected. Scanning Electron Microscopy (SEM) Analysis revealed evidence of component surface alteration. Solvent Tests for Resurfacing were performed which consist of the following solvents: Dynasolve 750. Results conclude that resurfacing material is present. SMT Corp. has found abnormalities with these components during the testing procedures. This lot of components has failed inspection and they are considered to be suspect counterfeit material per definition within AS6081/AS6171. January 2, 2023

## Task: SC-17-03 – DOE EM Single Approved Supplier List

Project Manager: John McDonald

- This new task was discussed at the EFCOG Spring 2017 and Fall 2017 meeting.
- 6/7/17 task start date
- Objective: Provide recommendations to develop and maintain a single list of approved NQA-1 and Commercial Grade suppliers for use at DOE EM facilities. As a minimum, the list should support EM facilities, but may include all of DOE.
- Deliverable: The task Team will provide recommendations to DOE and EFCOG on how to proceed with use of a complex wide EM approved supplier list. The recommendation should address the actions needed to allow contractors to use and maintain the list, contractual considerations, DOE endorsement, procedures, lead auditor certification, and conduct of supplier audits.
- 9/25/17 Final Report Issued.
- 2/13/18 MASL POC list is being populated to show which sites are participating. There are 16 EM sites, 8 NNSA, 10 OOS, and 1 NE site. See the MASL POC list for specifics. Only NTS, SRS, LANL, LLNL, & MSA are actively entering info into the MASL. Only NTS has it in their procedure to update the MASL as this is their ASL.
- 10/4/19 Summary for the 17 DOE EM sites: 6 are using the MASL [SRNS (includes SRR) & MSA (now HMIS), (includes CHPRC & WRPS) & FRNP] ; 7 are interested in putting suppliers into the MASL [WIPP-NWP; DUF6-MCS; ICP; SST (1 supplier in MASL); FBP; URS/CH2M; and CH2WV]; 3 unsure [N3B; PMA; Savannah River-Parsons/SWPF]
- 8/2018, EFCOG Safety Working Group Chair along with the SCQWG Chair have created a draft MOU. This MOU was discussed at the Fall 2018 Working Group meeting and Spring 2019 Working Group meeting.
- 7/31/19 the 8 NNSA sites signed a MOU document to agree to use the MASL.
- 3/30/22 Update:
  - 9 of the 17 EM sites are using the MSL (CHPRC now CPCco), HMIS, HLMI, WRPS, SRNS, SRR, FRNP, UCOR, SST);
  - 5 of the 17 EM sites are interested in using the MSL (WIPP, DUF6, ICP, FBP, & CHBWW)
  - 2 of the 10 OOS sites are using the MSL (BNL & PNNL)
  - 2 other of the 10 OOS sites should be using the MSL. (ORNL, & PPPL are interested.)
  - 1 NE (INL) site is now using the MSL

## Task: SC-21-01 – Expand NNSA, DOE EM, & DOE Office Of Science (OOS) Shared Supply Base

Project Manager: Bill Wingfield

- Action: ?????
- Goal: Increase the number of shared suppliers.
- POC: TBD
- 10/20/21 EFCOG SCQWG October Web-ex it was decided to change this Task from the Expand the NSE Supply Base to Expand the NNSA, DOE-EM, & DOE OOS supply base.
- Listed below are groups working (other than us in SCQWG) on improving the Supply Chain:
  - 6/9/21 - The NSE Share Supplier Assessment Working group started by Greg Hilgenkamp, KCNSC & Stefan Komarek, KCNSC; meeting every other Wed(s) 2:00pm EST.
  - Dennis Emmert, Office of Strategic Planning and Analysis (NA-183), Defense Programs, NNSA, Industrial Based Efforts to improve the Supply Chain met with the NSE Shared Supplier group on 8/25/21.
  - Amy Lientz, INL, & Jason Eaton, CNS-Y12 & Pantex started a Supply Chain Task with an EFCOG SCRMM Subgroup to address Presidential Executive Orders (#13817, 12/27 and #14017, 2/21). This is part of a new EFCOG Supply Chain Working Group lead by John Robinson.
  - EFCOG Glove Box Acquisition Improvement – John Longenecker, Mark Edelson, Bill Stephens, & Dave Olson's request, LANL & SRS are meeting to share information on glovebox suppliers. Last meeting was 10/05. Roland Chreiten (SRNS Capital Projects QA Manager) and Dana De Santos (LANL-Institutional Quality (Acting) Group Leader) are steering the QA changes.

Task: Potential Task SC-21-04 – NIAC Checklist Rev

Project Manager: Brent Shealy, Jim White, & Mark Ryan

DOE Liaison: Garrett Smith

Goal: Draft Rev 4 of NIAC Standard Checklist and send it to Katrina Anderson  
NIAC Procedures / Checklist Chair [katrina.Anderson@aecom.com](mailto:katrina.Anderson@aecom.com)

- Action: the revision will have to be approved by the NIAC membership and we will not be repeating requirements or just restating the NQA-1 requirement.
- 3/2021, per Mike Dunkelberger NIAC Chairman, many of the requirements listed in the EFCOG Supplemental checklist are already addressed in the NIAC Standard Checklist. For example, when I look at the Section for NQA-1 Requirement 15, I see more words, but the requirements are already addressed in NIAC Checklist Section 1.B.1 and 1.B.2. Almost everything stated for NQA-1 Requirement 12 is already addressed in NIAC Checklist Section 8. The requirements listed for NQA-1 Requirement 4 are already addressed in NIAC Checklist Section 3.2. We don't want the checklist to be repetitive, and I don't think a majority of NIAC members are willing to accept a checklist that simply copies and pastes the requirements from NQA-1.
- Also, the requirements for configuration management of an operating facility, only apply to an operating facility. We could include those requirements in the NIAC Checklist. However, I think they would be N/A for almost any Supplier audit performed by a NIAC member.
- 7/22/2021 Bill provided a word version of Rev 4 of the NIAC STD Checklist to Jim White, along with the gap analysis performed by Turk.
- 10/19/2021 Aaron Kramer provided comments to Jim White's proposed revision.
- 12/13/21 Comments were due to Jim White
- 1/15/2022 NIAC Checklist (proposed Rev 5) with NQA-1 requirements submitted to NIAC committee for consideration.
- 11/10/2022 the NIAC voted on and approved the Rev 5 of the NIAC Checklist
- 11/18/2022 this Task is now CLOSED.

Task: Potential Task SC-21-04 – NIAC Checklist Rev

Project Manager: Brent Shealy, Jim White, & Mark Ryan

The DOE sites that are NIAC members are:

- NWP Veronica Ballew & Jason Mayse
- UCOR Paula Sellers & Carl Wilkey
- CNS-PTX Scott Weaver & Steve Solis
- CNS-Y-12 Stephen Sands Jr & Jack Payton
- LANL Carmen Fannin & Jorge Borunda
- NNSS Vince Grosso & Aaron Kramer
- SRS Jim White & Mark Ryan
- ORNL Dave Shuter & Michael Houston
- INL – Christian Grebstad & Mathew Young
- DUF6 – Tom Taulbee & Jarred Grooms

## Task: New Task SC-22-01 – SCQWG & FAQ Webpage managed

Project Manager(s): **Alonzo Simon**, Jason Mayse & Kristi Haataja (Co-managers)

DOE Liaison: Garrett Smith

Goal:

1) Update the SCQWG web page at: <https://efcog.org/safety/quality-assurance-subgroup/supply-chain-quality-task-group/>

2) Add Frequently Asked Questions. (See the EFCOG QA Procurement Engineering and SQA web-pages for examples)

- 5/18/2022 Brainstorming Meeting – Discussed possible ways to open communication between all sites. A couple actions items will be discussed next EFCOG meeting after follow-ups complete.

## Task: New Task SC-22-03 – Supplier Performance Metrics

Project Manager(s): **Elena Galinski** (ANL)

DOE Liaison: TBD (possibly Christopher Beaman)

Members: Lydia Torres (SNL)

Goal: Identify sites with supplier performance metrics that could be turned into a white paper.

Discussion: Per Steve Behrends, I am suspicious that we are not capturing many of the nonconformances I believe are occurring as our numbers are just too low and year to year, fewer reported. Hopefully there will be a few locations that have metrics on this topic.

11/02/22 The EFCOG QA Policy & Procedures group issued a White Paper on this subject: E-SG-QA-PAP-2021-02 Revision 0 available at: <https://efcog.org/wp-content/uploads/Wgs/Safety%20Working%20Group/Quality%20Assurance%20Subgroup/Policy%20and%20Procedures/Documents/E-SG-QA-PAP-2021-02%20Rev0%20QA%20Metrics%20Guidance.pdf>

## Task: Potential New Task SC-23-01 – MSL Broadcasting

Project Manager(s): **Amber Romero** (SNL)

DOE Liaison: TBD (possibly Christopher Beaman)

Members:

Barbara Siciliano, INL

Bill Wingfield, LANL

Kristi Haataja, LLNL

Melissa Flury, SNL

Goal: Proliferation of MSL Access

Discussion:

- NNSA sites to stand up a web page on their internal unclassified network, with a description of the MSL and a link to registration.
- Other DOE complex sites to do the same, recognizing that they will not access detailed site audit reports conducted for weapon sites' needs.
- DOE complex sites' Small Business Advocates establishing access into MSL so that they can assist customers to find suppliers using MSL.

Official Use Only (OUO)

Task: Potential New Task SC-23-02 – MSL Expanded Data

Project Manager(s): **Amber Romero** (SNL)

DOE Liaison: TBD (possibly Christopher Beaman)

Members:

Goal: Expanding supplier list and information available in MSL

Discussion: Expand supplier list to include suppliers who are not required to undergo on-site assessments by NSE. Make SCRM reviews and desk assessments available to users for these suppliers. This would add over a thousand additional suppliers to the MSL, covering a wide variety of commodities and capabilities.

Task: Potential New Task SC-23-03 – Inspection Techniques

Project Manager(s): **Amber Romero** (SNL); **Gabby Holcomb** DOE-HQ

DOE Liaison: TBD (possibly Christopher Beaman)

Members:

Goal: To share best practices

Discussion: Share “best in class” quality inspection techniques for hardware and electronics

(As of Feb 2023)

Purpose:

1. **Reduce burden on audited facilities** (if you plan to audit or have audited the facility, speak up!)
2. **Reduce burden on DOE sites** (if interested in a supplier and can provide audit support, speak up!)
3. **Communicate focus areas (if applicable)** (if you had an experience with the supplier or other supplier with a similar commodity that warrants focused attention during an audit, speak up!)

### Who is Eligible to Grant ISO 9001 Certification?

- So who is eligible to grant ISO 9001 certification? Many people assume that ISO grants certification, but in fact, this is not true, instead, a registrar or certification body (CB) will be the one to grant certification (Read: [Who is ISO?](#)). When choosing a registrar a supplier should make sure that they are accredited. They should be a member of the International Accreditation Forum (IAF), and additionally need to be ISO/IEC 17021:2015 certified.
- One of these standards is [ISO/IEC 17021:2015 Conformity assessment “Requirements for bodies providing audit and certification of management systems”](#), which in effect stipulates the requirements for Registrars who certify organizations to ISO management standards like ISO 9001, ISO 14001, etc.
- People often say “[ISO Certified](#)” but ISO does not issue certificates or certify individual companies to any standard. So who can Grant ISO 9001 Certification? They are issued by certification/registration bodies (also called Registrars or CB’s), which are independent of ISO. CB’s need to be accredited by an IAF member to be internationally recognized.
- [ISO/IEC 17021](#) ensures international acceptance of the CB’s certifications (i.e. your ISO 9001:2008 certificate) by requiring that all Accreditation bodies ([ANAB](#), etc.) belong to an internationally accredited organization, like the [IAF](#). Likewise, the IAF ensures that CB’s comply with ISO/IEC 17021.
- Some Quality System Registrars are not accredited by IAF, and thus are not meeting [ISO 17021](#) — and **will not be internationally recognized**. Make sure that you [choose a Registrar](#) who is accredited by an [IAF member](#) (ANAB or the equivalent of ANAB in your country or region).
- When you receive your registration certificate, it should display the ANAB and the IAF logos and unfortunately, without them, you are not officially ISO 9001 certified.
- 11/2022, Amber Romero checked and we are not allowed to issue AS-9100 certs to our suppliers even if we were accredited, as this would be considered a conflict of interest.

## Recent Complex Organizational Moves!!

- UCOR

- The Department of Energy’s Office of Environmental Management (EM) has awarded a 10-year, \$8.3 billion contract to United Cleanup Oak Ridge (UCOR), of Germantown, Md., for the cleanup of the Oak Ridge Reservation in Tennessee, including the Y-12 National Security Complex, Oak Ridge National Laboratory (ORNL), and the East Tennessee Technology Park (ETTP).
- UCOR is a newly formed limited liability company made up of AECOM Energy and Construction, Jacobs Technology, and Honeywell International. UCOR’s teaming subcontractors include RSI EnTech, Strata-G, Longenecker and Associates, and Environmental Alternatives.
- **The timeline:** The Oak Ridge Reservation Cleanup Contract will replace the ETTP cleanup contract held by URS/CH2M Oak Ridge that expires on January 31, 2022. The current contract, however, includes one additional six-month option period that, if exercised, could extend it through July 31, 2022.
- **The tasks:** As the cleanup contractor, UCOR is to lead cleanup and remedial actions at ETTP; cleanup of excess facilities at ORNL and Y-12; design, construction, and operation of the new on-site disposal facility, the Environmental Management Disposal Facility; operational activities and surveillance and maintenance for multiple EM operational and nonoperational facilities; and core functions for central and project services.
- According to EM, the goal of this end-state contract award is to achieve measurable results toward the completion of the DOE-EM mission at the Oak Ridge Reservation by accomplishing the maximum amount of environmental cleanup within the 10-year ordering period at the best value to taxpayers.

Possible new Task for Joint Audits?

Does any site have a good method of sharing supplier documents (i.e. procedures) with team members?

LANL can use Teams and we have shared folders for our suppliers.

Google Workspace (Can't be used at INL or SNL)

MS Teams (SNL, INL, LANL, Y-12 & PTX can use)

OneDrive

Kiteworks

Any others?

Thanks !

We are looking to make this meeting as useful and meaningful to the audience as possible and would like to hear from the 'customer' on how we can make it more valuable

If you have any suggestions for this meeting (anything specific or general you want to add to meeting, anything you don't want to see, etc.), please send to [mslsupport@sandia.gov](mailto:mslsupport@sandia.gov)

Your suggestion will be kept anonymous. Only looking for feedback to make this meeting as useful and meaningful to the audience as possible.

Official Use Only (OUO)

- We are working on some new upgrades. Details were discussed in the EFCOG Fall Meeting during the MSL session.
- One feature is the merged multi-site audit schedule. In order to build the prototype all site need to submit their schedules to Kristin Bell as soon as possible to [mslsupport@sandia.gov](mailto:mslsupport@sandia.gov) **NLT April 30, 2023**. Once in place, the schedule in these slides will go away.

- We will be checking the MSL for ‘violations’ and contacting people individually!
- Kinds of errors found:
  - No auditor name (There should be an Owner name and at least the Lead Auditor name)
  - No start date (if you did an assessment, there is a start date or a scheduled start date)
  - Incorrect site identified (the site should always be the site who did the assessment even if you do it for another site)
  - No assessment method (if you did an assessment, there was a way you did it)
  - Not checking to see if supplier already exists and adding same one in a different naming format
  - Prefer and strongly recommend (but not required) a comment indicating pending SCARs
  - Prefer and strongly recommend (but not required) updating record once SCARs are closed and uploading
- **Kristin will be releasing new user guides to cover some of these things.**
- **There will be emails going out to the people who entered these, to try to fix future entries.**
- **Our goal is to have the best quality of information in MSL!**
