The purpose of the Industrial Hygiene, Safety and Chemical Management (IHSCM) Task Team is to promote safe work practices and a healthy workforce while supporting effective and efficient operations in the Department of Energy (DOE) and related EFCOG organizations in all aspects of industrial hygiene, safety, and chemical management. The IHSCM, through its Task Teams, will gather, evaluate, develop, and share performance measures, best management practices, and lessons learned consistent with the principles and functions of Integrated Safety Management.

Members are encouraged to share best practices and lessons learned, seek solutions from peers, learn from others, and generally exchange information on all aspects of the operation, management, and integration of DOE facilities in a safe, environmentally sound, efficient and cost-effective manner.

[External Link to Charter](#) – Here is the link to our current charter.

[External Link to Member Directory](#) – To add a person, please send the following info to the Leadership Team: Name, facility, position, email address, phone number.

[External Link to Meeting Info](#) - (Monthly meeting agendas, notes, presentations). Contact the Leadership Team if you would like the invite.

[External Link to Benchmarking Results](#) – Results from past benchmarking organized by calendar year.

Benchmark process:

1. Requester emails IHSCM Leadership Team with topic, questions, and any other information you would like discussed.
2. Leadership Team emails a survey to IHSCM TT Members.
3. TT Members forward the survey to the appropriate person in their organization to participate in the survey.
4. After 2 weeks to collect survey results, the IHSCM Leadership Team emails results to TT Members and post the results in the above cloud storage folder.
