

Typical Types of Parking

There are different types of parking spaces used on site. Pull-thru and head-in parking

1. Drivers shall park only in designated parking lots in delineated spaces.
2. When using pull-thru parking, drivers shall:

**Pull all the way to the front of the parking space. Do not pull into the rear space and leave the front space vacant.
Do not drive the wrong direction in the parking lot lanes.**

Correct Pull-Thru Parking

Incorrect Pull-Thru Parking

Pull all the way to the front of the parking space in correct direction. (Note the direction of how all other cars are parked)

Do not pull into the rear space and leave the front open.

Do not drive the wrong direction down parking lanes. (Noted with Red Dashed Arrows)

Correct Head-In Parking

Incorrect Head-In Parking

Do not pull through the space or park backwards.
